The UN Office for Disarmament Affairs and the Stimson Center invite you to

MAINTAINING THE NUCLEAR PEACE: A CONVERSATION WITH MICHAEL KREPON

Tuesday, 22 March 2022
10.00 am – 11.30 am (EST)

The greatest unacknowledged diplomatic achievement of the Cold War was the absence of the use of nuclear weapons. This achievement rested on the principles of the UN Charter, especially respect for the territorial integrity and national sovereignty of member states. Amidst the Cold War, world leaders came together to create a global regime to control nuclear arms, prevent nuclear warfare and work towards the goal of a world free of nuclear weapons. Today, that nuclear peace is imperiled. Arms control needs to be revived and reimagined.

Convened by the United Nations Office for Disarmament Affairs and the Stimson Center, the event will feature a conversation between Co-founder of the Stimson Center Michael Krepon and Dilan Ezgi Koç, UN Youth Champion for Disarmament, with introductory remarks by UN High Representative for Disarmament Affairs, Izumi Nakamitsu.
